ROCKLIFFE ANNOUNCES COMPETITIVE UPGRADE PROGRAM FOR CRITICAL PATH CUSTOMERS

50% Discount Provides Sites Running InScribe? Messaging Server with Inexpensive Migration Path to Rockliffe's MailSite Enterprise

Campbell, Calif., May 8, 2001 – Rockliffe, Inc. today announced an aggressive competitive upgrade program for existing customers of Critical Path Inc. Under the program Rockliffe is offering a limited-time discount of 50% on MailSite? Enterprise to sites that currently use Critical Path's InScribe™ Messaging Server, allowing sites of all sizes to upgrade to Rockliffe's "Rock-Solid" reliability for only \$1,995.

MailSite Enterprise offers unmatched messaging scalability and performance on the Windows 2000? platform, and can support over 50,000 mailboxes on a single server. MailSite Enterprise also includes extensive anti-spam and mail filtering capabilities, an integrated list server, and delegated administration. MailSite Enterprise also comes bundled with MailSite Express, a webmail client that supports 17 languages, as well as MailSite Pocket, a wireless client for WAP devices.

"Many customers of Critical Path are looking for an e-mail server product and vendor that offer Rock-Solid reliability," said Rockliffe President/CEO John Davies. "With this competitive discount, we are inviting sites now using InScribe™ to experience Rockliffe's world-class software and support for themselves. We look forward to helping these sites migrate to MailSite Enterprise."

In addition to MailSite Enterprise, Rockliffe is offering competitive upgrade discounts to Critical Path customers on MailSite DataCenter, its highly-scalable solution for large service providers, which can support millions of mailboxes on a cluster of servers.

About Rockliffe

Rockliffe is a leading developer of scalable messaging and e-mail infrastructure software for Internet service providers, application service providers, and corporations. The company was established in 1995 and is based in California's Silicon Valley, with European headquarters in Leeds, UK. Rockliffe has several thousand customers worldwide hosting more than 10 million mailboxes. These include leading ASPs such as Digex, unified messaging providers such as Vocal Link, and large enterprises including Intel, AT&T, Cambridge University, and UK government departments. Rockliffe recently announced its strategic relationship with Compaq Computer Corporation to jointly develop and market a version of Rockliffe's MailSite to run on the Compaq NonStop? Himalaya? server, providing messaging infrastructure for the largest e-mail providers in the world.
